3

Complete your Affiliate Profile and click save Profile – Don't worry too much if you feel you can't complete everything. Complete it to the best of your ability. You can always go back and edit later.

4

Send your commitment message – read the pre-written message, answer the questions and submit

5

Upload your photo. You won't be able to become a a2a member until you have uploaded your photo and it has been approved. Approval usually takes 1-2 days.

[MyAccount](#) > [Miscellaneous Account Options](#) > My Photo

By adding your photo, your new affiliates can be greeted by not just your name but also a friendly face...YOURS! Your picture personalizes SFI for your new affiliates and lets them know that their sponsor is a real person. Hence, we *strongly encourage* all affiliates to add their photos to their accounts. Do NOT upload copyrighted material, celebrity photos, pictures of other people, etc. The point is to get YOUR face in front of your affiliates. And it's simple and easy, just follow the steps below.

ASK SC: [Why is it important to have a good SFI account photo? And what makes a good photo?](#)

Step 1

Upload your photo

Click the button below to select a photo to upload. Once your photo is selected, click the 'upload' button to continue to step 2.

No file selected.

Step 2

Scale and crop your photo

If necessary, rotate your photo with the buttons below, then click and drag a square over your photo to select the area you want to save as your affiliate photo. When you're ready, click the 'Save Cropped Photo' button below and a preview will be generated in step 3.

Step 3

Preview

If the preview image needs additional changes, reposition the crop & scale box in step 2 as you see fit and click the "Save Cropped Photo" button again to generate a new preview image. When you're satisfied with the preview image, click the "Save Affiliate Photo" button below.

Your photo is pending approval
